This project enables you to display the latest and previous build versions for a Visual Studio application project or a solution file as a text. The macro also enables you to search and display build versions between two dates. Reusability of the macro: The macro can be saved as an automation function and can be used in any Visual Studio project or solution file. Easy and free to customize NO INSTRUMENTATION REQUIRED Step-by-Step Visual Studio Wizard-driven Installation Step-by-Step Visual Studio Wizard-driven Installation EASY TO CONFIGURE NO INSTRUMENTATION REQUIRED Tired of all those macros you've created that need to be manually configured and then tested? Are you looking for a solution that will simplify the process of creating your own macros? Do you want to ensure that your macros are reusable and can be used in multiple projects or solutions? Do you want to ensure that your macros are saved in a central location that can be easily accessed from any computer? Do you want to spend less time creating your macros and more time developing your application? Is your time limited? If you answered "Yes" to any of the above questions, then you need Easy Macro Pro. Easy Macro Pro is a Visual Studio extension that allows you to easily create macros, as well as validate them and make them reusable in any Visual Studio application project. Get started with Easy Macro Pro by either installing the extension from within Visual Studio or by downloading the extension's .zip file and unzipping it to a location of your choice. After either installation, the extension's settings can be accessed from within Visual Studio by accessing the Options menu in the main menu bar and selecting the "Macro Options" tab. From there, configure the various settings needed for your macros. Easy Macro Pro currently supports the following macros: Verify Solution File Version Step-by-step Visual Studio Wizard-driven Installation Requirements System Requirements Win32: Windows XP or newer Mac: Mac OS X 10.5 or newer Visual Studio: Visual Studio 2005 or newer 64-bit Visual Studio: Visual Studio 2010 or newer Note: Macros that use third-party libraries such as OpenGL or DirectX may require 70238732e0 Wowza Streaming Engine 4 Keygen 51 ascii rocky quimica
