S = Shift-8, 1 = Left For rearrangement of chemical formula the = sign can be substituted by an arrow APPEARANCE: SAPPEARANCE Description: SAPPEARANCE is a small project developed in Visual Basic for Office (VB) 2007. .NET-MACRO Description: This is a macro that works with Microsoft Excel (Excel 2003 - 2007) In the macro there are macros that work with various Maths Formulas TYPES OF FORMULAS: The macros will detect type of the formula and will choose its formula's type to work with it. So you can get total formulae(a,b,c,...), mixed formulas(a+b, b-c,...), mixed integer formulae(a*b,...), mixed integer decimal formulae(1.23*1.45,...), fractions(1/2, 1/3,...) and so on. The user can add his own formulae types as well. KEYMACRO Features: The User can write his own macros as well. So he can change formulas' types to his own type. To change formula types and to make their types more understandable. To check various formulae types, to change formulae' types of the formulae. To check numbers, strings, logicals, collections, etc. and much more To make calculated data of the formulae as a result of the macro APPEARANCE: APPEARANCE Description: APPEARANCE is a small project developed in Visual Basic for Office (VB) 2007. .NET-MACRO Features: The user can add macros as well.
